

ERRATA for "PURSUING POLYNOMIAL BOUNDS ON TORSION"

Our results were based on work of A. Lozano-Robledo in

A. Lozano-Robledo, "*Uniform boundedness in terms of ramification*,"
Research in Number Theory **4** (2018), article 6.

Unfortunately, that manuscript contains a gap in the proofs at a critical point. While Lozano-Robledo believes this is fixable, as far as I know no corrections have yet been published.
